

Delegates had an explosive time at this month's Business Breakfast! Mr Hall and his team of student scientists launched the meeting with some exciting science that led to queues of delegates lining up to be set on fire! Attempts were also made to launch a rocket which on its test launch, only days earlier, had travelled 300m into the sky before parachuting safely back to school grounds.

The Explosive Science! Club is hoping to raise funds to build bigger rockets and compete against other schools. It's an ideal chance for Businesses to grab some cheap (just £20!) but effective publicity by paying for their logo to appear on the side of the Rocket. Several delegates snapped up the opportunity but it's not too late to buy your place in Shoreham Academy Rocket history; contact Mr Hall for more details.

Sarah Hopwood, from Paul Hopwood Consulting Ltd, calmly followed the excitement with some excellent advice on networking skills. Delegates paid close attention and were seen putting her advice into practice during the networking that followed. Our thanks go to her and to our other guest speakers; Patrick O'Donoghue from Hunters Recruitment, Richard Mason from Medics on the Move, and Rob Biss from Sussex Academy of Music.

Our Business Breakfasts continue to go from strength to strength and have become increasingly popular. If you haven't attended before, why not make it your New Year's resolution? An easy one to achieve; join us for a delicious free breakfast in the comfortable surroundings of our Sixth Form Village and build your business!

Date for your diary: **Thursday 28th January.**

Please email the address below to reserve your place.

Ms Meller, *Director of Vocational Studies*
